Efni: beiðni um umsögn-kvikmyndataka á ref í Hornstrandarfriðlandinu

Umhverfisstofnun hefur borist umsókn frá Maramedie dags. 6. febrúar 2019 með viðbótargögnum dags. 12. janúar 2019, um leyfi til kvikmynda refi innan Hornstrandarfriðlandsins.

Umhverfisstofnun óskar eftir umsögn Náttúrufræðistofnun á hvort myndatökan sé líkleg til að hafa neikvæð áhrif á lífríki svæðisins þ.e. refina.

Þess er óskað að umsögnin berist eigi síðar en 1. mars 2019.

Bestu kveðjur, Best regards

The Environment Agency of Iceland has received your application on permitt to film foxes in Hornstrandir nature reserve.

In order to process your application we would need more information about the project

- Where in Hornstrandir are you planing to film
- Foxes at how many dens will you be filming
- How long are you planing to film at each den at each time and in what distance
- How often are you planing to visit each den
- How long will you rest the dens between filming
- Will you be using tents or other shelters to hide from the animals
- Regarding the drone we would need information about flight path and maximum and minimum fligth altitude.
- We need to know if you are planing to film landscape, foxes or both with the drones
- Charging of batterys for the cameras, will you bring enough batterys with you or will you need to bring in a generator til charge them.
- Will Ester be with you while filming or is see only a consultan

This January a new management plan implemented for the area. With the management plan new rules were determed for the area. Now all filming projects that can have impact on wild life and dronflight need a permitt from the Environment Agency. Environment Agency of Iceland charges a fee for processing applications for permits in protected areas based on Article 92 of Act no. 61/2013 on Nature Conservation. The fee for cinematography and/or photography is 52.600 ISK according to art. 24. b. in the agency's tariff no. 535/2015. A bill will be issued for processing the application in the next few days.
